Master Of Ceremonies

Continue the upbeat vibe from the ceremony into the reception to ensure a brilliant day from start to finish.

MC Services

Let's get ready for a reception hosted by yours truly with the skills of presenter **Sonia Kruger**, the fun and laid-back tone and style of **Sophie Monk**, and the empathy and care of **Drew Barrymore**!

A **Master of Ceremonies (MC)** plays a crucial and multifaceted role in orchestrating and enhancing the flow and fun of your wedding reception; **we are essentially your bestie, supporter, and gopher for the evening**. After setting the celebratory tone for your wedding ceremony, I can help **organise and liaise between your ceremony and reception** to ensure the transition runs smoothly and everything is spot on. And I will continue this **upbeat vibe and checking in on everyone** into the reception to ensure a brilliant day from start to finish.

Trust me to create the atmosphere that reflects your style and personality, introduce and **celebrate key moments at the reception** (think your entrance, first dance, speeches, toasts, cake cutting, games and dancing), **manage the schedule with vendors** and guests, adapt to any changes and ensure the celebration is full of stress-free fun!

So, **let me hang out with you into the evening. I am a familiar, friendly face** as I have already met and interacted with you, your wedding party, family, and friends.

Like a wedding celebrant, it's not just about standing before your guests and reading from a script. There is so much more involved!

So, what can you expect from a professional MC like myself?

Role of a Master of Ceremonies (MC):

1. Pre-Planning:

Who doesn't love a list of resources, suggestions, and a checklist to plan that rockin' reception? Here it is. Use this to help with your questionnaire.

2. Setting the Tone and Vibe:

The MC sets the tone for the entire reception, creating an atmosphere that reflects the couple's style and personality.

3. Introducing and Announcing:

We introduce key moments such as the entrance of the bridal party, the couple's first dance, toasts, cake cutting, games, sparkler exit and other significant proceedings.

4. Managing the Schedule:

Time does matter at wedding venues. I keep the reception on schedule, ensuring each section runs smoothly and on time. You can't keep the food waiting!

5. Engaging the Guests:

I will entertain guests and keep them engaged throughout the evening through humour, stories, charisma, and love. If you need a hand getting the dancefloor pumping, I am your gal!

6. Coordination with Vendors:

The MC works closely with vendors, such as the DJ, photographer, and catering staff, to ensure seamless coordination and everything runs smoothly.

7. Flexible with Changes:

If unexpected situations arise, I am skilled at adapting and maintaining a positive and celebratory atmosphere. Spot fires can easily be extinguished.

8. Guiding Guests and the Couple:

Everyone will know what to expect and how to participate in various activities and be prepped when they will occur.

9. Creating a Freakin' Fabulous Reception

You guys sashay throughout the evening, and I make sure it all comes together seamlessly. Party on!

10. How do you structure the reception?

This will depend on the time of year you marry. Get a run sheet from your venue for ideas. We can't mess with the food timings once set but we can have an outline and move things on the night if needed.
